

Down the Rabbit Hole

Adam Lambert

Break out all the mechanical
Step right up to the freaky intangible
Hands uncuffed, take the leash off this animal
If it's getting hyphy hit me with a night-c (yeah)
Slip right into your stripper shoes
Roll the dice, I got snake eyes and deja vu
Poppin off and I'm bouncing with ballyhoo
Tune in (tune in)
Turn on (turn on)
Drop outGoing down the rabbit hole
Get away from all we know
Come on, follow
Come on and follow me
Going down the rabbit hole
Even hoes and gigolos
Come on, follow
Come on and follow meQuick slow high or low
You're never gonna know for sure
See in stereo
Down the rabbit holeCatnip and honey, teatime and all over town
(all over town, all over town)
houses of candy, build 'em up and then burn 'em down
(burn em down, just burn em down)
it melts in your face and not in your armour
It starts in the bass and it ends in the crystal ballGoing down the rabbit hole
Get away from all we know
Come on, follow
Come on and follow me
Going down the rabbit hole
Even hoes and gigolos
Come on, follow
Come on and follow meDisco rodeo
In my kaleidoscope
Cleopatra knows
What's down the rabbit holeGoing down the rabbit hole
Get away from all we know
Come on, follow
Come on and follow me
Going down the rabbit hole

Even hoes and gigolos
Come on, follow
Come on and follow me Quick slow high or low
You're never gonna know for sure
See in stereo
Down the rabbit hole (Who are you?)
(Who are you?)
(Who are you?)
Who, Who, who are you?
(Who are you?)
Who, Who, who, who are you?
(Who are you?)
(Who are you?)
