Care for You

Wolfsheim

And when winter comes around
You'll need your winter shoes
But if winter's still about to get too cold for you
You'll need someone to keep you warmSomeone to help you through the storm
Someone who's good, doing no harm
And he'll say"I care for you, I'm there
I'm there for you, I care"And when the time is right
You'll wear your wedding shoes
And if this life still seems to be
Not quite enough for youYou'll find someone to help you out
Someone to miss and dream about
That being in love is doing no harm
And he'll say"I care for you, I'm there
I'm there for you, I care"
