No Surprise

Fugazi

Hey what's your name?
Do you feel the same way too?
Siphon fuel don't make a sound
And most of all don't let me down
It comes as no surprise
We're destabilized
Lock eyes shared plan
No c.i.a. could understand
Defile define critique and salve
No c.i.a. no n.s.a.
No satellite could map our veins
