

Calling My Name

Hezekiah Walker

It's freezing
Like a cold heart
The blood in her veins
Doesn't stay warm
So if you don't trust me
Pack up your things and leave
Don't trust me
Pack up your things and leave
Give me a break
You always got to be right
If it's not a war, baby
Still a hard fight
You wanna forget the memory
Forget all about me
Forget all about me
Well, last night, last night

I saw you standing in the rain
Calling my name
Calling my name
Heard your voice
And it sounded the same
Calling my name
Calling my name

She's looking like a monster
We wanna try
But nothing ever stops her
Now, now you don't trust me
We all want you to leave
Don't trust me
We all want you to leave
Give me a break
We only want what's best
Remember when we used to be
The best of our friends
I can't begin to recognize
The blackness in your eyes
So last night

Tell me why

I saw you standing in the rain
Calling my name
Calling my name
Heard your voice
And it sounded the same
Calling my name
Calling my name

I saw you standing in the rain
Calling my name
Calling my name
Heard your voice
And it sounded the same
Calling my name
Calling my name

Call it a coma
Call it a crime
You've been falling out of love
You've been talking out of line
Call it a coma
I say it's true
You forgot about the time
When I told you that I love you

I saw you standing in the rain
Calling my name
Calling my name
Heard your voice
And it sounded the same
Calling my name
Calling my name

I saw you standing in the rain
Calling my name
Calling my name
Heard your voice
And it sounded the same
Calling my name
Calling my name

I saw you standing in the rain
Calling my name
Calling my name

Heard your voice
And it sounded the same
Calling my name
Calling my name

I saw you standing in the rain
Calling my name
Calling my name
Heard your voice
And it sounded the same
Calling my name
Calling my name
