Fire Makes Steel

Survivor

Under the gum,the game can get rough,
I'm feeling no pain,calling it's bluff,it's bluff,
Just crossing the finish line,been breaking all the rules,
Out of the ice,the pressure can get to you.Whatever it takes to stop the fire inside,
I'm ready to feel that breath tonight.Cause fire makes steel,you're as hot as you feel,
When you're running on faith,it's the power that takes you over,
When they're hard on your heels,yet fire makes steel,
The hunger inside keeps driving me on.Fire makes steelThere's no way to take the easy way out,no,
It doesn't exist in a world full of doubt,of doubt,
A fumble I'm searching for,I say :"No pain,no gain",
You do it your way,I do it mine.Whatever it takes to stop the fire inside,
I'm ready to feel that breath tonight.Cause fire makes steel,you're as hot as you feel,
When you're running on faith,it's the power that takes you over,
When they're hard on your heels,yet fire makes steel,
The hunger inside keeps driving me on.Don't you know!Cause fire makes steel,you're as hot as you feel,
When you're running on faith,it's the power that takes you over,
When they're hard on your heels,yet fire makes steel,
The hunger inside keeps driving me on.Cause fire makes steel,you're as hot as you feel,
When you're running on faith,it's the power that takes you over,
When they're hard on your heels,yet fire makes steel,
When you're running on faith,it's the power that takes you over,
It's the power that takes you over,yeah!
