Mad Sounds

Arctic Monkeys

Mad sounds in your ears
Make you feel alright
They bring you back to life
Mad sounds in your ears
They make you get up and dance
Make you get up
Yeah they make you get upLove buckles under the strain
Of those wild nights
Run but you cannot hideMad sounds in your ears
They make you get up and dance
They make you get up
All night long they reappear
Make you get up and dance
Yeah they make you get upSuppose you've gotta do what you gotta do
We just weren't feeling how we wanted to
You site and try sometimes but you just can't figure out
What went wrong
When out of nowhere somebody comes and hits you with anOoh, la la la
Ooh, la la la
Ooh, la la la, oohYou got those mad sounds in your ears
To make you get up and dance
Mad sounds in your ears
They make you get up and dance
Well don't they make you get up
Yeah they make you get up
