

trouble sleeping

Boomd

It's late and I'm feeling so tired
Having trouble sleeping
This constant compromise
Between thinking and breathing Could it be I'm suffering
Because I'll never give in
Won't say that I'm falling in love Please, please, tell me
I don't see myself
Couldn't I blame something else
No, don't say, yeah
Don't say I'm falling in love Some kind of therapy is all I need
Please believe me
Some instant remedy
That can cure me completely Could it be I'm suffering
Because I'll never give in
Won't say that I'm falling in love Please, please, tell me
I don't see myself
Couldn't I blame something else
No, don't say, yeah
Please don't say I'm falling in love 'Cause I've been there before
And it's not enough
So nobody say it Don't even say it
I've got my eyes shut
Oh, no, oh, no, not enough Could it be I'm suffering
Because I'll never give in
Won't say that I'm falling in love Please, please, tell me
I don't see myself
Couldn't I blame something else
No, don't say, yeah
Please don't say I'm falling in love Don't say that I'm falling in love
Don't say that I'm falling in love
Don't say that I'm falling in love
Don't say that I'm falling in love Couldn't I blame something else
Falling in love Don't say, don't say
Don't say, don't say
Falling in love Don't say that I'm falling in love
Don't say that I'm falling in love
Don't say that I'm falling in love
Don't say that I'm falling in love
Don't say that I'm falling in love
