

# Fun In Space

**Roger Taylor**

Strangers in a strange land  
In an alien heat  
Journeys made by no man  
In event of defeat  
This ship sings to the skies  
This ship sings to the skies  
For all you, Gals and guys  
Stranger than fiction  
The smile on your face  
Boy when we get there  
We'll have fun in space  
Our structure is battered  
But the corridors ring  
With little green stories  
Of this and these things  
This ship sings to the skies  
This ship sings to the skies  
For all you gals and guys  
Stranger than fiction  
The smile on your face  
Boy when we get there  
We'll have fun in space...
