Faking It

The Rustles

Sitting in the summer sun
Thinking over what's begun
Dreaming of a better place
Frightened look upon your face
'Cause you know what must be done
Execute the only one

You faked it all the way
You faked it all the way
You faked it all the way
You faked it all the way
You!

Sitting with no sound
Fucked in terms of what to do
Daydreaming of a better place
Frightened look upon my face
'Cause I know what must be done
'Till I rose the only one

You faked it all the way
You faked it all the way
You faked it all the way
You faked it all the way
You!

She executes the only one
She executes the only one
She executes the only one
She executes the only one
She executes the only one

You faked it all the way
You faked it all the way
You faked it all the way
You faked it all the way
You!
