Christy Vanity

F-Minus

i have a prediction, history holds as the truth and the past seems to see things better than you do. as for an idea that i only borrowed. you're a straight line. too easy to follow. as for... as for... as for doomed? yes you are. i have a prediction, i know as the truth. and who could see things better than you do? me against you. me on my side. your vanity versus mine. as for... as for... as for doomed? yes you are. me against you. me on my side. your vanity versus mine. as for... as for... as for... doomed? yes you are. your vanity versus mine.
