

You A Lie

Waka Flocka Flame

Bitch I'm out here grinding, crib like king of diamonds
you can catch me wearing 2 chainz! Yeah I'm shining
Look my nigga fresh good, making sure them checks good
Gotta feed the homies, real plague is what respect would
These flashing lights is blinding, go get them a visor
Call the ... the gas leaking, I set this shit on fire
And I don't fuck with liars, only tell the truth
Honesty is key and that is in and out the booth
And I ball one day in the bleaches
So high they can't reach us
I dropped out of college and make more dough than my teachers
Definition of swagger, all off in my passion
One time for real niggas, that's out here making it happen
And middle finger to them nigga who gonna say that we ain't fly
We're above all of that drama, cause we out here staying high
You gonna see a real nigga when you look me in the eye
I'm a leader in this bitch and hold me I can tell you why
I'm on fire, you say you're more fire then nigga you a lie
I'm on fire, you say you're more fire then nigga you a lie
I'm on fire, you say you're more fire then nigga you a lie
I'm on fire, you say you're more fire then nigga you a lie

Now I ... when I was high
Thought about the time that I
Wasn't even paid to be the leader of the...
Just a young nigga ... and they trying to play camp
...and if you got money, you can go and place your bet
I'll be in the sky cause we're riding on the jet
... but cause I got a name and a brand to protect
And all I ask from you is respect
Erywhere they turn they gonna get the same thang
...and now they about to watch the whole name change
Remember my name, and understand
That I'm a go getter, money maker
Make a promise I can't be no broke nigga
That would be a let down, like unravel and a broke swisher
...
And middle finger to them nigga who gonna say that we ain't fly
We're above all of that drama, cause we out here staying high

You gonna see a real nigga when you look me in the eye
I'm a leader in this bitch and hold me I can tell you why
I'm on fire, you say you're more fire then nigga you a lie
I'm on fire, you say you're more fire then nigga you a lie
I'm on fire, you say you're more fire then nigga you a lie
I'm on fire, you say you're more fire then nigga you a lie X 2
