

The Fortnite Rap Battle

NerdOut

What up y'all. It's Ceez in the builds
And when I'm in the game, I like to style with my kills
You know that I am the king of dusty You trying too hard, you smellin' mad musty
Killin me? You must be mistaken
Because it's yo life, that I will be takin'
Wah wah wah, now you crying to your mommy
But guess what papi, now you back in the lobby
Yeet! Ooh! Gameplay real ratchet
Other players in the realm, you know they can not match it
And when we done, we hit 'em with a dance
I boogie with my feet, then I boogie with my hands
Triggered trash kids when their salt is increased
Sorry gotta go, double g, double peace
Ahh yeet!
Triggered trash kids, when their salt is increased
Sorry gotta go, double g, double peace. Ahh yeet!
I'm in the hilltops, views real nice
I got the kill shot, you will die
When I aim, one prayer equals one life
Man I told you, they talk about my snipes
You noscope? I quickscope, you will choke
The loud bang make you jump, for real tho
You real slow when you crouch
I gotchya, now you're in the lobby, wonderin' who shot ya? Yeah!
Always hype, never lowkey
I'm the king, yeah you know me
Steady shot I'm an OG
Hear that? Cause I'm coming for the trophy
Fortnite! Fortnite lets go!
I get it all night, all night fo sho
I'm on that fortnite, fortnite let's go!
I get it all night, all night fo sho
Yeah! Yeah!
I got a green submachine gun, dude sick!
Everybody's building ramps, that's useless!
If I keep hoppin' around they can't shoot me
He got lucky when he hit me with that boogie
I don't care, if they're snipin and scopin
I'm really low on health, I'll just heal in the open

Slidin' down a mountain only takes a little damage
Oh look! There's a shed with a scar and a bandage Oh yes! I just killed another pleb
Call me black widow baby, walk into my web
Here fishy fishy, look at all the goodies
Lock you inside, take advantage of the rookies
Open up a window and lay down the spikes
You try to break free, but it's over say goodnight
I make it look easy, it ain't that hard
Surprise. You just activated my trap card Hold up! Everybody be quiet
Don't want the enemy seein' me when I'm hiding
Ducked in the bushes, never see my spying
Silencer on the pistol, you on the ground crying
I'm flying off the launchpad, landing in the trees
Sniped from above, peeking through the leaves
Playin' hide and seek, yeah I'm deadly with the squeeze
Listen! You can look around, but you'll never find me!
Ha Ha!! Always hype, never lowkey
I'm the king, yeah you know me
Steady shot I'm an OG
Hear that? Cause I'm coming for the trophy
Fortnite! Fortnite lets go!
I get it all night, all night fo sho
I'm on that fortnite, fortnite let's go!
I get it all night, all night fo sho
Yeah! Yeah! Pull out the blueprints, got the world in my pocket
Quad wall, throwin' up a ramp then I cock it
You got an rpg shooting rockets
Gonna make you down yourself, when I block it
Now watch this, fallin' to your death out of my place
Got the highground, now I'm shootin' from a skybase
Keep it going up
Mats triple 9 mate, bye mate,
wish that you could see the look on my face I'm Elite baby, don't you see the outfit?
Double pumps don't matter, man I got this
Shoot a rocket and pop a mini at the same time
If you put a scar in my hand, then it's game time!
Got a sniper, a shotty, I'm unstoppable
I'm droppin' you, I'm dancin' on top of you
Am I top tier? Go and ask the last dude
Uninstall the game, because honestly you're trash dude
