

That's Life

The Baby Boomers

I like baby talking, popcorn without butter
And any boy who will pay attention to these requirements
 I'm an optimistic beauty, never impolite
Easy like Saturday, mid-day, breezy, chilled-out, dumb grrl
 That's life with me, I know
 Around and around you will go
 But if I French-kiss you in the broad daylight
You'll fall in love, oh, oh, oh, that's life with me, I know
 Well I am pretending to be a free-bouncing lover
I wear my defensive mask of optimism like a badge
 And ultimately I am much too lazy to change
I'm rather conditioned to my life of melodrama
 That's life with me, I know
 Around and around you will go
 But if I French-kiss you in the broad daylight
You'll fall in love, oh, oh, oh, that's life with me, I know
And you'll know with me, that's how it will be my friend
 A roller coaster ride, you won't forget
I am just a mess, I am just a mess at best
 A blue-ribbon, prizewinner till the end
 That's life with me, I know
 Around and around you will go
 But if I French-kiss you in the broad daylight
You'll fall in love, oh, oh, oh, that's life with me, I know
 That's life with me, I know
 Around and around you will go
 But if I French-kiss you in the broad daylight
You'll fall in love, oh, oh, oh, that's life with me
