

# Dark Lady

## Intervision

The fortune queen of New Orleans  
Was brushing her cat in her black limousine  
    On the back seat were scratches  
        From the marks of men  
        Her fortune she had won  
    Couldn't see through the tinted glass  
She said, "Home James" and he hit the gas  
    I followed her to some darkened room  
        She took my money, she said,  
        "I'll be with you soon"

[Chorus]  
Dark lady laughed and danced  
    And lit the candles one by one  
        Danced to her gypsy music  
        Till her brew was done  
    Dark lady played black magic  
Till the clock struck on the twelve  
    She told me more about me  
        Than I knew myself

She dealt two cards, a queen and a three  
    And mumbled some words  
        That were so strange to me  
    Then she turned up a two-eyed jack  
        My eyes saw red but the card  
        Still stayed black  
She said the man you love is secretly true  
To someone else who is very close to you  
    My advice is that you leave this place  
        Never come back and forget  
        You ever saw my face

[Chorus]

So I ran home and crawled in my bed  
    I couldn't sleep  
        Because of all the things she said  
    Then I remembered her strange perfume  
        And how I smelled it once in my own room

So I sneaked back  
And caught her with my man  
Laughing and kissing  
Till they saw the gun in my hand  
The next thing I knew  
They were dead on the floor  
Dark lady would never  
Turn a card up anymore

[Chorus]
