

# Never Let Go

## DubRocca

I can't understand it  
The search for an answer is met with a darker day  
And we've been handed these moments forever  
But I'm reassured there's another way  
You don't have to close your eyes, there is room for love again  
Ease the pain to realize all that love can be  
Forced apart by time and sand, take a step and take my hand  
And don't let it go, never let go  
Broken, once connected  
We were so strong and so blessed in a simple way  
So don't let me go it alone  
Turn your head up to the sky, nothing down below but me

Face the truth to realize all that we could be  
Torn apart by rage and fear  
Hold on to what brought you here  
Don't let it go, never let go  
Turn your head up to the sky  
Nothing down below but me  
Face the truth to realize all that we could be  
Turn your head up to the sky, nothing down below  
Don't let go
