

Opposites

Eric Clapton

Night after day, day after night
White after black, black after white
Fight after peace, peace after fight
Life after death, death after life
Night after day, day after night
White after black, black after white
Fight after peace, peace after fight
Life after death, death after life
Night after day, day after night
White after black, black after white
Fight after peace, peace after fight
Life after death, death after life
