

# Force of the Serpent

## Unlord

[Aha-Hith's conception]And the serpent falls from heaven, he descends in human form

In this night his seed will arrive, in the womb of the gypsy whore  
A young girl called Aha-Hith, was embraced by the demon of sin

With brute force he will take her, to him she will give in

Raised is the son all whats dark, raised among the slaves

Prisoner of the Christian hounds, the birthground of vile hate

'I deny the christ, the child of light, profane be his name'

A life of suffering, honour and blood as the son of God is slain

Saint in heaven

Sinner in Hell

Lucifer Descends

The Angel who fell

Pig on a cross

We have no remorse

In an age of war fall to the force of the serpent

And when my son arrives, the pig, who shall be crucified,

is the son of Nazareth, drink the blood from his head

Saint in heaven

Sinner in Hell

Lucifer Descends

The Angel who fell

Pig on a cross

We have no remorse

In an age of war fall to the force of the serpent

Raised is the son of all whats dark, raised among the slaves

Prisoner of the Christian hounds, the birthground of vile hate

'I deny the christ, the child of light, profane be his name'

A life of suffering, honour and blood as the son of God is slain
