

Bliss

Buckcherry

I needed it, I wanted this
Eternal bliss from just one kiss Take me to your room, put your records on
Did you know that you're playing my favorite song?
Lying on your bed, sad and violent red
Stuck on you and I can't get you out of my head We needed it
Eternal bliss from just one kiss I'm so high so you better keep me from falling
'Cause I'm falling for you
I'm so high, are you ready to feel like I do?
'Cause I can't stop thinking of you You got all this down, baby, show me how
The way you move is making me crazy for you
Always wanna chase, it's written on your face
You turn me on and you know that I've waited so long I needed it
Eternal bliss from just one kiss I'm so high so you better keep me from falling
'Cause I'm falling for you
I'm so high, are you ready to feel like I do?
'Cause I can't stop thinking of you, of you I never felt I needed more than this
You broke the spell with just one kiss
So good, I need it for a bit
Eternal bliss from just one kiss, yeah I'm so high so you better keep me from falling
'Cause I'm falling for you
I'm so high, are you ready to feel like I do?
'Cause I can't stop thinking of you I'm so high so you better keep me from falling
'Cause I'm falling for you
I'm so high, are you ready to feel like I do?
'Cause I can't stop thinking of you Eternal bliss from just one kiss
