Hog Wild

Hank Williams, Jr.

Well, I was born at a party in a barn
With a guitar strapped across my arm
So I learned to play in a different style
Everyone knows that I'm hog wildWell, I pick it high and I pick it low
Pick it with my teeth and pick it with my toe
You can hear me play for a country mile
Everybody knows that I'm hog wild
Everybody knows that I'm hog wildWell, I laid around on the farm too long
Me and them city folks couldn't get along
My momma said, "You're a destined child
They all know you's born hog wild"So I traveled all over this land
And I found myself a back-woods band
You could hear us play for a country mile
Everybody knows that we're hog wild
Yeah, everybody knows that we're hog wildEverybody knows that we're hog wild
Everybody knows that we're hog wild
Everybody knows that I play loud
Everybody know, everybody knows, everybody knows
Everybody knows that we're hog wildMake it wild, make it wild
Make it wild, make it wild
Make it wild, make it wild
Rootin' around town
