Slomotion

Screeching Weasel

(Weasel/Personality)
Take stock of the situation assess the comlications that arise from our half truths the stage in this case is just a tool to make it possible for you to justify your blighted worldview I've got an answer if we don't need it we don't take it the scams transparency is we get older and we feel like we are missing something we wonder why our plans don't work when we take a stand we slink away like frightened rats I've got the answerif we don't need it we don't take it we want to build a perfect world somehow but the prizes just out of reach have slowed us down
