Wrong Replacement

The Color Red

I'm coming to find you if it takes all night
There's something inside me, you will not feel
'Cause you just don't feel and me, I am not realTook too long to make you see
I'm the wrong replacementBreak, break from me
Until you break
Break from meClearing the airways, searching for one thing right
I'm giving you something that you won't feel
'Cause you just don't feel and me, I'm not realTook too long to make you see
I'm the wrong replacementBreak, break from me
Until you break
Break from meYou won't take it away from me
You won't take it away from meI'm coming to find you
Break, break from meUntil you break down
Break away from meUntil you break down
Break away from meUntil you break down
Break away
