Heading for the Dawn

Firewind

Gazing at the stars
We're flying over million restless souls
A dream that keeps me alive
We're always reaching higher for the skiesOh we're million miles away
We're far away from home
We're million miles away
Oh we're million miles away
We're heading for the dawn
we're million miles awayWe turned the bends
We're crossing all the oceans
For desire and for pain
We come and go, we feel
We're heading for new places that's insaneOh we're million miles away
Our spirit never dies
We're million miles away
Oh we're million miles away
Our keeper never lies
we're million miles away
