

Isolation

Alter Bridge

When all is lost to you inside
When all the darkness takes the light
The ritual, it has begun
And now you tear away from everyone
Disconnected, so alone, yeah
Severed ties from all you know
Isolation brings you to the end
Until you love again, oh
Isolation, if you could only see
What will come to be, yeah
Justify, you waste away
You dare to dream but still you're too afraid
And now you're broken and deceived
Lost to live this cruel reality
You're disconnected, so alone
Severed ties from all you know
Isolation brings you to the end
Until you love again, oh
Isolation, if you could only see
What will come to be, yeah
Maybe you'll stand, maybe you'll give
And break to find another way
And make things better
Maybe you'll find a life you can live
And learn to love along the way
And make things better
And make things better
Isolation brings you to the end
Until you love again, oh
Isolation, if you could only see
What will come to be, yeah
Isolation brings you to the end
Until you love again, oh
Isolation, if you could only see
What will come to be
You're disconnected, so alone
What will come to be?
You're disconnected, so alone
