

Love Bucket

Gang of Thieves

Waiting for the day to slowly drift away
The night is always welcome at my door
Memories build a cage so I shed my past away
Let us release all signs of the troubled times
Fight the strife with laughter Well I'm hearing people say this world is on it's way
But I got a different point of view I see in you
Pride is washed away in the unity we face
And I'll believe in us 'till the sky opens up
Yeah Maddie came down to say
I gotta fill up my bucket
My love bucket Differences are blind till some one shines a light
Cuz in the darkness we all seem to look alike
Just here for a night so in you I must rely
And I'll believe in us till the sky opens up
Yeah Mary came down to say
I gotta fill up my bucket
My love bucket I gotta fill it up I gotta fill up my bucket
My love bucket
