Blue Mix

Five Iron Frenzy

In simple English, this is truth beneath the vibe and all the lights under the guise of Jesus Christ so see if this makes sense to you they lie, these spies covered, your eyes I guess we lost it long ago I never knew this was a contest Chorus: Blue mixes kick us while were down, yeah Fixing prices Sure you say So, blue mix means to weaken sound one thing but your actions tell the truth on you Make us pay to go on tour turns concert halls to battlegrounds And when did this become a contest? Blind fans, gold mine marked up t-shirts to match yours you are, dollar signs I guess we lost it long ago to watch what you buy You are responsible these bands that you love So watch them pull the wool over your eyes Watch us watch them.
