A Year From Now

Phil Vassar

I'd like to think that I'm alright
that I'm not empty every night
without your touch to fill me up
And I don't miss your face
beside me on that pillowcase
but I still do but I won't reach for you
A year from now I'll think about the best of times
and not the love we left behind
everytime you cross my mind
A year from now I might even smile
when I see your face and you walk in
I don't know where and I sure don't know when
I don't know how I guess we'll see
so just ask me a year from now
Maybe I'll be where you are
and see us as a shooting star
That had to fall and that was all
And I can finally face the facts
you ain't never coming back

and maybe then maybe we can be just friends
A year from now I'll think about the best of times
and not the love we left behind
everytime you cross my mind
A year from now I might even smile
when I see your face and you walk in
I don't know where and I sure don't know when
I don't know how I guess we'll see
so just ask me a year from now
Well a year from now I'll think about the best of times
and not the love we left behind
everytime you cross my mind
A year from now I might even smile
when I see your face and you walk in
I don't know where and I sure don't know when
I don't know how I guess we'll see
so just ask me a year from now
Yeah I guess we'll see so just ask me
a year from now whoa a year from now
