

# 7 Weeks

## InMe

Go

So you're still the same, there's nothing left in me  
Do you really think that we could save this?  
Now get off your feet and really do something  
Do you really think it matters anyway?  
You said that we were fine, you're lying all this time  
You're the thorn that's in my side  
7 weeks go by, it's so hard to say goodbye  
Take your thorn  
Take your pills, so you can feel more of this and more of me  
Don't shut that door in my face  
Do you really think it matters?  
Do you really think it matters anyway?

You said that we were fine, you're lying all this time  
You're the thorn that's in my side  
7 weeks go by, it's so hard to say goodbye  
Take your thorn out of my side  
My side, my side  
Take your thorn out of my side  
My side, my side  
Take your thorn out of my side  
You said that we were fine, you're lying all this time  
You're the thorn that's in my side  
7 weeks go by, it's so hard to say goodbye  
Take your thorn out of my side  
Go
