

# New Little Girl

## Off Broadway

There's a new little girl on the block  
You should see when she roll and she rock  
She's so fine, she'll make time like a clock  
New little girlShe wear tight black slacks and pink flats  
And her waist length hair is a gas  
Lots of make-up, she looks so fast  
New little girlShe's a good little girl  
Good, good little girlShe's a sucker for love and affection  
I go ga ga when we get a connection  
She's a bird in every sense of the word  
New little girlShe's a good little girl  
Good, good little girlI get so shy with her  
Can't seem to find the right word  
Wish she would follow me  
Good girl can't you see, owNew little girl  
New little girlShe's a good little girl  
Good, good little girlI get so shy with her  
Can't seem to find the right word  
Wish she would follow me, hey  
Good girl can't you seeShe's a sucker for love and affection  
I go ga ga when we get a connection  
She's a bird in every sense of the word  
New little girlUh ow ow good good girl
