Blood Bath

Attomica

Nightmares and visions in my head bringin disillusion and confusion creatures from hell raise from the ground starting to march side by side they're looking for souls they have no control spreading hate and destruction they dont look back dont stop the attack its time to prey for your life! blood bath ! Blood bath ! sliced bodies lie decapitated guts are spread everywhere puddles of blood with piles of bones the corps are rotting on the ground theres no salvation just devastation maybe its the end of time the extermination annihilation aint no hope for mankind ! Blood bath ! Blood bath! get ready for the blood bath, die !!!! Theres no salvation just devastation maybe its the end of time the extermination annihilation aint no hope for mankind get ready for the blood bath !
