Retaliation Suite

Thievery Corporation

[interlude - 2x]
We got to defend ourselves.
We intend to defend ourselves.We did so in the past,
And we gonna do it today,
And the day after that and the day after that.Because only through this proper example of the self-defense,
And the proper example of retaliation,
And by letting these people know that we move from some basic laws.That anything that goes down will oppress people on the power of the oppressor;
It should be reciprocal and in plain proleterian workers' language;
It takes two to tango.
As soon as these motherfuckers go, we go.
