You wanna see me fail
You won't get your chance
You wanna see me fail
You won't get your chance
You wanna see me fail
You'll never get your chance This is our lives
This is who we are
You can't put a price on it
It's strength within our hearts From within our souls
Stood strong throughout the years
(Stood strong)
This runs through our veins
We stay true to ourselves You wanna see me fail
You won't get your chance
You wanna see me fail
You won't get your chance
You wanna see me fail
You'll never get your chance Who are you to judge us?
Who are you to condemn?
I have respect, honor and dedication
For my family and my friends From within our souls
Stood strong throughout the years
(Stood strong)
This runs through our veins
We stay true to ourselves You wanna see me fail
(You wanna see me fail)
You won't get your chance
(You won't get your chance)
This is deeper than blood
(This is deeper than blood)
It's all that we have
(It's all that we have) Proven
