

## Zoom In

# Octo Wallace

Stood on the line  
You understand I've been waiting forever  
Come rain, come shine  
In the wind, in the snow, in the filthy weather  
You got it all worked out  
Yeah, but it knocks you out  
I'm zooming in  
Now she arrives  
In a flaming crash like a falling star  
Heading straight for the dive  
Gonna make some cash with that avatar  
You got it all worked out  
I know you know I don't want you to go  
Yeah, but it knocks you out  
I'm zooming in on you, on you  
Don't look back you're a heart attack  
You got it all worked out  
Yeah, but it knocks you out  
We're not alone  
In the second life there are millions like us  
Right here in the stones  
In the air too bright all the new insiders  
You got it all worked out  
I know you know I don't want you to go  
Yeah, but it knocks you out  
I'm zooming in on you, on you  
Na, na, na, na, na, na  
I know you know I don't want you to go  
Na, na, na, na, na, na  
I'm zooming in and out on you  
I'm zooming in and out on you  
Zooming in and out on you  
Na, na, na, na, na, na  
I know you know I don't want you to go  
Na, na, na, na, na, na  
I'm zooming in and out on you
