Everything Changed

Abra Moore

Everything changed, I don't feel the same
I'm standin' in the shower, I'm cryin'It shouldn't be that hard, I've made it this far
Just wash away the tears, it keeps fallin'I don't know why, I never take the time
To slow down, you're movin' too fast, nothin' will lastEverything changed, nobody to blame
Just put away my heart and stop tryin'I don't know when I'll ever love again
Got to slow down, movin' too fast, nothin' will lastI don't know why, I never take the time
To slow down, movin' too fast, nothin' will last
Slow down, slow down
