

# Stone ( Feat. Sebastian Kole)

## Alessia Cara

So much on my mind  
I think I think too much  
Read between these lines  
unspoken weight of words

But time comes to rest when you are by my side, it blurs  
And I will follow where this takes me  
And my tomorrows long to be unknown

When all is shaken, be my safety

In a world uncertain, say you'll be my stone  
Change in every wind  
The sands of time don't know our name  
Oh, nothing's sure, but surely as we stand

I promise I will stay the same

And I've never seen forever

But I know we'll remain  
And I will follow where this takes me  
And my tomorrows long to be unknown

When all is shaken, be my safety

In a world uncertain, say you'll be my stone  
(Ooh-ooh-ooh) Be my stone

In a world uncertain, say you'll be my stone  
Oh, steady me, be my source of gravity  
While my world's unraveling

Say you'll never change, ooh, oh  
And I will follow where this takes me  
And my tomorrows long to be unknown

When all is shaken, be my safety

In a world uncertain, say you'll be my stone  
(Ooh-ooh-ooh) Be my stone

In a world uncertain, say you'll be my stone
