3'S

Nodaway

I know all about your prayers
I know all about your tender thighs, and your careful cares
I know all about your lips
I know all about your the words you write up and down your wrists

I know all about your heart
I know all about its creases and its folds and its paper parts
I know all about your mistakes
I know all about your flaws and how they never look that way

At least to me
Your love has always come in 3's
Hesitant, passionate then guilty
Spell it out for me
A-B-C-D L-O-V-E you and me
Just don't work

I know all about your life
I know all about your day just by the way that you say hi
I know all about your shy
I know all about the scar tissue that I left behind
So I kiss it goodnight

'Cause to me
Your love has always come in 3's
Hesitant, passionate then guilty
Spell it out for me
A-B-C-D L-O-V-E you and me
Just don't work
Don't work now

...

'Cause to me
Your love has always come in 3's
Hesitant, passionate then guilty
Spell it out for me
A-B-C-D L-O-V-E you and me
Just don't work

'Cause to me

A-B-C-D L-O-V-E you and me
don't work, no

I know all about your heart
