

Dirtywhirl

TV on the Radio

Oh, there is a murderous amongst us
Her love is a violent spiral
Hurling in the corners
Conjured up at the birth of the world
Dirgen is a dancer
Mindless questions find no answers
Slicin' through the ether
Yeah, she's gleamin' like mother of pearls
Dirty little whirl wind
Commander, controller, I've found you
Dirty little whirl wind
I am pinned by the heat of your swirl
Dirty little whirl wind
Descender, destroyer, I've found you
Dirty little whirl wind
Tangled up in the flesh of a girl
Curl me up inside of you
This spark in your eyes, the night
The apocalypse inside you
Twisting the pits from the particle
Skull can't save face
So shake the shame from it
Burn me up inside of you
Let me churn in your furnace of whirl
Dirty little whirl wind
Commander, controller, I've found you
Dirty little whirl wind
I am pinned by the heat of your swirl
Dirty little whirl wind
Descender, destroyer, I've found you
Dirty little whirl wind
All caught up in the flesh of a girl
All I ever wanted to be was destroyed at sea
The hurricane rescued me, savage calamity
All I ever wanted to be was destroyed at sea
The hurricane rescued me, savage calamity
Do not delay
We stood in place for it
Turn me up inside you
Up and into the heart of your whirl
