

Bee

[meyer-landrut, lena](#)

'Cause I'm free as a bee flying over the trees
And all the summertime boys, all looking at me
And the world keeps on buzzing the sound of my heart
Going hmm, hmm, hmm and this is only the start
Did you ever want something so bad?
You could feel it to the end of the fingertips
They're reaching out for something to grab
And someone smacks your hand
And it becomes so hard to see the end of the line
But I'm free as a bee flying over the trees
And all the summertime boys all looking at me
And the world keeps on buzzing to the sound of my heart
Going hmm, hmm, hmm and this is only the start
I feel like a little kid again
No worries for me to understand
Fall in love each night and then waking up
With the feeling that I can't describe
I love this life, it just gets better
But I'm free as a bee and flying over the trees
And all the summertime boys all looking at me
But the world keeps on buzzing to the sound of my heart
Going hmm, hmm, hmm and this is only the start
Free as a bee flying over the trees
And all the summertime boys all looking at me
And my world hears on buzzing to the sound of my heart
Going hmm, hmm, hmm and this is only the start
'Cause I'm free as a bee flying over the trees
And all the summertime boys, all looking at me
And my world hears on buzzing to the sound of my heart
Going hmm, hmm, hmm and this is only the start
'Cause I'm free as a bee flying over the trees
And all the summertime boys all looking at me
And my world hears on buzzing to the sound of my heart
Going hmm, hmm, hmm and this is only the start
