

Fury of the Storm (Rob Van Dam)

Shadows Fall

Die
Survive or you will die
The hope
The top he dies
Cause he needs to rise
Too much fear to survive I'm above all the rest
What it takes to be the best
I'll burn this whole place down
I'll put you in the ground He wears the crown
The fear and pain is gone
He'll survives all
Through the fury of the storm I'm above all the rest
What it takes to be the best
I'll burn this whole place down
I'll put you in the ground
