Calm Down

Loney Dear

Slow down, there's nothin' after you
Back down, there's nothin' after you
Calm down, there's nothin' after you
after youSlow down, there's nothin' after you
Calm down, there's nothin' after you
Calm down, there's nothin' after you
after youYea, yea
There's nothin' after you
There's nothin' after you
There's nothin' after youSlow down, there's nothin' after you
Back down, there's nothin' after you
Calm down, there's nothin' after you
after youSlow down, there's nothin' after you
Back down, there's nothin' after you
Calm down, there's nothin' after you
after youAnd will you catch catch catch me if I fall fall fall
If I go down down down
If I go downAnd will you catch catch catch me if I fall fall fall
If I go down down down
If I go down
