

I Am (Miracle)

Anthony Brown & group therAPy

I'm a living breathing walking talking moving miracle
I'm a living breathing walking talking moving miracle
People said I'd never, they said I'd never ever but stop look watchCause I am, I am
Cause I am, I amI heard (I heard)
You were (you were)
Wondering (Wondering if God still answers prayer)I heard (I heard)
That you were (that you were)
Searching for a sign
That He was still right there(put it up come on)
Every time you shake my hand oh yeah
Every time you me dance oh yeah
You can tell by looking
But I ain't got time to tell ya
All you really need to know isI'm a living breathing walking talking moving miracle
I'm a living breathing walking talking moving miracle
People said I'd never, they said I'd never ever but stop look watchCause I am, I am
Cause I am, I amSo who are they compare to he
Who lives in me and knows all things
Greater is he than what you see
If you need proof just look at meSo who are they compare to he
Who lives in me and knows all things
Greater is he than what you see
If you need proof just look at meI'm a living breathing walking talking moving miracle
I'm a living breathing walking talking moving miracle
People said I'd never, they said I'd never ever but stop look watchCause I am, I am
Cause I am, I amCause I am, I am
Cause I am, I amSo who are theyCompare to heGreater is heThan what you seeGreater is he 3xSolo... Oh
ohGreater is he than what you see
If you believe just look at me
