Mistakes

Lake Street Dive

I know the outcome
and I'm not blind
I've been standing right here before
and I do it every time

I never think I lose,
but it's a losing game
and I'm breaking all the rules
thinking that I'm gonna change

Oh, it's good
that these men don't know each other
I got one who's working undercover
trying to solve my mystery

Look at what mistake
I'm making now
I'm jumping right on in
When I know it's gonna end somehow
Look at what mistake
I'm making now
I'm jumping right on in
When I know it's gonna end somehow

I've told these stories
and I've said these lies
I ignore what my heart tells me
and I break it every time

I never think I lose
but it's a losing game
and I'm breaking all the rules
thinking that I'm gonna change

Oh, it's good
that these men don't know each other
Well, every time I lose one, I can just move on
I always find another

Look at what mistake

I'm making now
Cause I know it,
Cause I know it's gonna end somehow
