

# Cmon talk - Live

## Bernhoft

C'mon and talk to me  
I will try the upmost  
To be honest with you  
Try to be honest with you  
Every single

Work I'm gonna talk to me  
I will try the upmost  
To be rhythmical  
Try to be rhythmical

I've been thinking a lot since the end  
Of our family affair  
And the things that went wrong, in a matter of speaking  
Should have been more forthcoming  
About the things I needed to say  
But you've seen to be talking to someone else

Now you've got me feeling so sorry  
For something I didn't do  
You've got me crawlin' around a gutter  
When I should have been busy  
Making love to you  
So it's all smoothed over  
You covered your ears real tight  
Is it up to me to be telling  
The black from the white?

Talkin' to you is bittersweet, bittersweet  
Now talkin' to you is bittersweet, bittersweet  
Now talkin' to you is bittersweet, bittersweet  
Been now talkin' to you, bittersweet, bittersweet

C'mon talk t'talk t'talk t'talk  
To me yeah  
To me yeah

So what matters most in the end  
Is beyond our big blue reeds

Had to unfold all the mysteries

It take a different kind of species  
I'm unable to handle the weight  
Of all of your doubts  
What a new words

Now you've got me feeling so stupid  
When I couldn't understand  
You've got me reeling around in circles  
Incomprehensible demand

Talkin' to you is bittersweet, bittersweet  
Now talkin' to you is bittersweet, bittersweet  
Now talkin' to you is bittersweet, bittersweet  
Been now talkin' to you, bittersweet, bittersweet

C'mon talk t'talk t't'talk t'talk  
To me yeah  
To me yeah

---
