Love Her for a While

Sam Outlaw

LOVE HER FOR A WHILE SAM OUTLAW

I know it in the morning
I know it in the evening
I know it the sun goes down
And when the moon rises
There's something inside that says
I'm going to love her for awhile

I feel it in the cool breeze
I see it in the autumn leaves
I hear it in the softest sounds
Like everybody's playing
Same sweet song saying
I'm going to love her for awhile

CHORUS
It isn't any good at making sense
It's something I can never comprehend
I'd only be a fool to try
But there's not a single bit of doubt
'cause everything I've needed to find out
Has just found me
So now I know down inside me

And I know it in the morning
I know it in the evening
I know it when the sun goes down
Now even when I'm dreaming
I get some kind of feeling like
I'm going to love her for awhile

INSTRUMENTALIA

CHORUS
There isn't anything left to confess
That's everything I needed to express
I've got a little peace of mind
And even though I struggle to believe
I only have a look around and see what's all around me

So now I know so profoundly

And I know it in the morning
I know it in the evening
When that sun goes down
And when the moon rises
There's something inside that says
I'm going to love her for awhile

I'm going to love her for aWhile
