

# Popsicle

## New Kids On The Block

You're my pop-si-cle  
From the very first time I met you, Girl, you captured me  
You're my pop-si-cle  
All I know is that you make me feel so fancyfree  
Gonna love you for a lifetime  
And I know you're gonna love me too  
You make me feel, feel so real  
And it feels so good, through and through  
Sweeter than candy  
Better than cake  
And everytime we kiss  
It feels oh so great  
Girl, can't you see?  
You're the one, you're the one for me  
You're my pop-si-cle  
From the very first time I met you, Girl, you captured me  
You're my pop-si-cle  
All I know is that you make me feel so fancyfree  
When I call you up on my favorite party line  
You sound so sweet, Girl. You're blowing my mind  
Our love is much better than any other I know  
And it keeps on growing, more and more  
Girl, can't you see?  
You're the one, you're the one for me  
You're my pop-si-cle  
From the very first time I met you, Girl, you captured me  
You're my pop-si-cle  
All I know is that you make me feel so fancyfree  
POP POP POP POP POP POPSICLE  
Hey, hey, little girl with your pretty dress on  
I've been wanting you to want me for my whole life long  
You knock me off my feet, girl, you're a super treat  
When I see you in the street you make my heart skip a beat  
You're the one who makes me feel alright  
When I look into your eyes, you know you're really out of sight  
I'm for you and you're for me  
We could stay together so easily  
POP POP POP POP POP POPSICLE  
Girl, can't you see?

You're the one, you're the one for me  
You're my pop-si-cle  
From the very first time I met you, Girl, you captured me  
You're my pop-si-cle  
All I know is that you make me feel so fancyfree  
POP POP POP POP POP POPSICLE
