She's Goin' Down

Nazz

She's goin' down
NazzAbout time you took a stand
But please don't misunderstand
I know she won't be back again
I think she's taken all she canShe's goin' down
She's comin' 'round
It's all over, she's goin' down
She's goin' down for the last time
Don't bother waiting for the next time around
The first time, it doesn't show
And her kind, just come and go
She's like a ship, a drifting free
And now she's sinking in the sea
