

# Where's the Party

## Eddie Money

Where's the party?  
Where's the party?  
Show me the way, show me the way  
It's like a holiday that happens every day  
I get to celebrate, no matter what you say  
When I get real bored, I want something more  
I never lose my head 'cause I know the score  
Show me the way, show me the way  
C'mon, show me the way  
Where's the party?  
All I wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?  
All I wanna do is have some fun  
Where's the party?  
Show me the way, show me the way  
One thing I know is when I feel low  
I never have to worry, got a place to party  
No one's getting mean, it's so obscene  
No matter what goes down, I just get what I need  
Show me the way, show me the way  
C'mon, show me the way

Where's the party?  
All I wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?  
All I wanna do is have some fun  
Where's the party?  
Where's the party?  
Show me the way, if you show me the way  
C'mon, show me the way  
Where's the party?  
All I wanna do is have some fun  
Where's the party?  
Party all night 'til I can't go on  
Where's the party?

All I wanna do is have some fun  
Where's the party?  
Show me the way, show me the way
