

Honky Tonk Aliens

Helldorado

Have you ever been to Mercury?
Have you ever been to Mars?
Have you ever been to Jupiter,
 drinkin' in alien bars?
Or have you ever been to Earth,
Where gravity pulls you down?
 It's such a sad place to be
for the Honky Tonk Aliens
 Honky Tonk Aliens
 are floating in outer space
 You see them
on the western hemisphere
Oh yes, I've been to Mercury
 I've also been to Mars
 I've even been to Jupiter
 drinkin' in alien bars
But I would never land on Earth
where gravity pulls you down
 It's such a sad place to be
for the Honky Tonk Aliens
 Honky Tonk Aliens
 are floating in outer space
 You see them
on the western hemisphere
