

Regrets Are the Best

White Ninja

I'm giving all this up
to get down tonight
Give it up

See the night and beep
Seems I think we should find her
Cause we tried it all

Got some business in here

Got a million lies to say before you go
(Give it up or the world will stop
Don't stop or the world will give you up)

Just leave me be
I get to see in the dark
Now they say
I got a really big truck
This guy, he works at the beer factory
They're talking 'bout this
They're talking 'bout just the same

See the night and beep
Seems I think we should find her
Cause we tried it all

She said, try to figure this out
Back-broke interior design
you're as dumb as your sister is fat
Let it ring

(Give it up or the world will stop
Don't stop or the world will give you up)
