

# I'm With the Band

## Stone Gods

          Last night in Memphis  
          Tonight in New Orleans  
          Tomorrow I'll be miles from here  
          Ain't nothin' to me, nothin' to me  
                  Sweet gypsy highway  
          Won't you let me chase my dream  
          'Cause I got a song to take me there  
          And it's somethin' to see, somethin' to see  
          Lord, I was born with a suitcase in my hand  
          Livin' in a life that few could understand  
                  Sometimes it gets so confusin'  
                  That I don't know where I am  
          But I always know who I'm with  
                  I'm with the band  
                  Cheap whiskey midnight  
                  Another round with my friends  
          Watchin' the world through the windshield  
                  And we're rollin' again, rollin' again  
          Lord, I was born with a suitcase in my hand  
          Livin' in a life that few could understand  
                  Sometimes it gets so confusin'  
                  That I don't know where I am  
          But I always know who I'm with  
                  I'm with the band  
          Lord, I was born with a suitcase in my hand  
                  Livin' in a life that few could understand  
                  Sometimes it gets so confusin'  
                  That I don't know where I am  
          But I always know who I'm with  
                  I'm with the band  
                  Last night in Memphis  
                  Tonight in New Orleans  
          Tomorrow I'll be miles from here  
          Ain't nothin' to me, nothin' to me
