

Shine

[Michelle Malone](#)

Written by Michelle Malone (SBS Records 2012) I'm a plane and you're the sky
Without you I cannot fly
You lift me up and give me a place to land
You're the sunshine on my skin
clapping leaves, ovation wind
you are the song that makes me want to sing You're a ray of light in my darkest night
I can feel your light so let it SHINE You pick up the pieces, you make it seem so easy
Put me back together, I'm light as a feather again You're a shepard, I'm a stray
You're the star that lights the way
And I will follow where it is you lead
You're supercalifragilistic
I'm a mystery, you're a mystic
tell you my secrets, you hold them like a child You're a ray of light in my darkest night
I'm so tired of chasing shadows
You're a ray of light in my darkest night
I can feel your light so let it SHINE
Let it SHINE, let it SHINE, let it SHINE I'm a plane and you're the sky
